## 1. Overview of the new Sorting Options on the Project Calendar List View

The DreamTeam Project Calendar now enables users to sort by multiple columns on the List View.

To Sort by multiple columns, simply follow the step below:

1. Once on the Project Calendar, click on the List View icon on the top right

2. Next, once in the List View, right click on the column header and select Sort Multiple.

3. The Sort DreamTeam Task Fields dialog box will appear. Here users can select up to four columns to filter and also select whether they want the results to be displayed in ascending or descending order by clicking on the appropriate radio button. You can sort up to 4 columns at the same time.

4. Once you click OK, the List View will appear again with triangles located on the right side of the column header indicating the sorting order. (NOTE: If you click on a column while multiple sorting has been set it will revert back to single sorting.)

2. Product Support:
